

水土保持計畫審查問題之探討

段錦浩^[1] 林威鐘^[2] 陳尚偉^[3]

摘 要 水土保持計畫為開發山坡地重要之先決條件及書件，透過審查水土保持計畫，可以結合各專業領域審查委員之意見，確保土地開發利用之合理性及安全性。

本研究搜集各目的事業水土保持計畫審查案共 217 件，整理水土保持計畫審查意見，歸納分析審查常見問題。接著從法規及實務兩方面探討水土保持計畫審查意見所衍生之各項問題並提出建議。藉由所得之常見審查意見與問題之討論，希望可以提供審查者及設計者來參考，以縮小雙方意見之差異，縮短審查期程，進而提升行政效率及確保水土保持計畫之品質。

關鍵詞： 水土保持計畫、水土保持計畫審查、水土保持技術規範

Common Issues on the Soil and Water Conservation Plans for Various Construction Enterprises

Ching-Hao Tuan^[1] Wei-Jung Lin^[2] Shang-Wei Chen^[3]

ABSTRACT Soil and water conservation plans are the crucial reports for applying to develop and utilize the slopland. Through the review mechanism for various professional fields, we can promote safe and proper use of land.

From the reviews of 217 soil and water conservation plans for Various Construction Enterprises, all comments were generalized and analyzed. Subsequently, from the aspects of laws and regulations, and actual practice, the discussions were focused on problems generated by comments on soil and water conservation plans. Accompanying the discussions, our suggestions and possible solutions to those problems are covered in this report. We sincerely hope the discussions and analyses made in this report can serve as a great reference for investigators and designers of plans, so that conflicts and disagreements may be reduced and the time invested in reviews may be shortened. Consequently, we can enhance administrative efficiency and assure the high quality of soil and water conservation plans.

Key words: Soil and Water Conservation Plan, the Review of the Soil and Water Conservation Plan, Soil and Water Conservation Technical Specifications
